

1 May 2017

Dear Client,

The Board of Trustees of ISPS Consulting Engineers has made the difficult decision to cease trading ISPS Consulting Engineers Limited. This was a carefully considered decision bearing the loyalty to our staff and clients in mind while recognizing the needs of Ian and Mary's beneficiaries.

Being mindful of the trust you have placed in ISPS and the contractual obligations that ISPS holds with you, the Board has negotiated with two local companies that have a similar ethos to that of ISPS, – Cheal in Taupo and NZCEL in Wellington – who will integrate ISPS staff into their teams and, through a novation process, with your consent, move your projects to their stewardship for completion.

ISPS Taupo staff will join Cheal on 1st May 2017 and ISPS Wellington staff will join NZCEL on the 15th May 2017.

Cheal and NZCEL, along with the ISPS staff responsible for your project, will be in contact in the next few weeks to discuss your individual project requirements at your convenience.

We have every confidence that you will be provided with the same expertise, care and service with these new companies, as you had with ISPS.

We would like to take the opportunity to thank you for your custom to date and are thrilled that ISPS staff will have the opportunity to continue working with you on your current and new projects under Cheal and NZCEL.

Yours Sincerely

Angela Clark  
Board of Trustee's Member
